### 2.3.2 Leisure Dive Tab

In this tab, it will list down all the products that allow customer to select diving package that they want. Dive Centre is allowed to configure multiple products and group into same category in the **DC Admin module**.

Upon clicking on the product (as highlighted in grey color in the screenshot below), product details screen will appear at the bottom of the page. This screen will list down all the information related to the selected product.

Customer selects the number of trip from the **drop down list** and click on the **[Add to My Dive Cart]** button. The selected product will then add into the **[My Dive Cart]** bucket that located at the right bottom of the page. Customer need to click multiple times if he/she is attempt to book for a group of people.

The screenshot illustrates the 'Leisure Dive' tab of the Scubbi Online Diving Portal. On the left, there's a grid of four underwater images labeled 'Product Rows'. Below this, a list of diving packages is shown:

- Boat Dive**: MYR 120 per dive
- Dives from shore**: MYR 145 per dive
- Adventure Dive**: MYR 200 per dive
- Boat Night Dive** (highlighted in grey): MYR 120 per dive
- Boat Night Dive (Coral Island)**: MYR 145 per dive
- Snorkeling from the Boat with Rental Equipment**: MYR 100 per dive
- PADI Discover Scuba Diving (Boat)**: MYR 245 per dive
- Dives from shore**: MYR 145 per dive
- PADI Discover Scuba Diving (Boat)**: MYR 245 per dive

Below the list, there's a section for **Boat Night Dive** with a dropdown set to '10 dives' and a total price of 'MYR 1200'. A red arrow points from the top of this section to the 'Boat Night Dive' row in the main list. Another red arrow points from the bottom of this section to a 'Product Details Screen' box. The 'Product Details Screen' box contains information about dive sites, optional services like equipment rental and dinner, booking policy, cancellation policy, and a summary of included/excluded items.

On the right side of the interface, there's a map of Tioman Island with Pulau Tioman marked. Below the map is a sidebar titled 'My Dive Cart' which lists items added to the cart, including boat night dives and equipment rentals. At the bottom of the sidebar is a red 'Checkout' button.

Upon clicking on the Dive Sites pin point in the Google map (from **Section 2.2 Search Result Page**), this will open a new tab to show the information of the selected dive site.

**Tiger Reef**

**Overview**

This submerged reef lies in the channel between the islands of Sepoi and Labas. Some impressive coral formations can be seen here such as plate, brain and fire coral. It is one of the most impressive reefs in the area, covered in hard and soft coral it attracts thousands of fish including snapper, fusiliers, batfish, jacks and tuna. Since currents are often stronger barracuda and blacktip sharks put in an appearance here.

A submerged pinnacle between Labas and Sepoi Islands, it starts at 8m and slopes down to 22m. This is one of the major highlights of Tioman's underwater world. The rock formation is simply stunning because of the cover of soft coral, hard coral and barrel sponges and since Tiger Reef is not so frequently dived there is little evidence of human impact on the corals. Due to the stronger currents you can expect here you can encounter large schools of jacks, mackerels, yellow fin barracuda, fusiliers and rainbow runners on almost every dive. With all these giant boulders around, experienced divers can zoom in and out of the canyons to avoid the strong currents. You can expect to find here angelfish, moray eels, pufferfish, nudibranchs and perhaps even a couple of resting white tip reef sharks.

<b>Current</b>	Moderate to Strong	<b>Water temperature</b>	Ranges from 27C/80F to 30C/86F
<b>Underwater visibility</b>	Ranges between 5m-30m / 16-98ft, depending on the season	<b>Diving season</b>	Late January and lasts until middle of November.
<b>Depth</b>	Average: 8 m Maximum: 25 m	<b>What to see</b>	Angelfish, puffer fish, bat fish, emperors, nurse sharks, blank tip sharks, stingrays, moray eels, lion fish, turtles.  Rays and reef sharks are quite common for the area. It is also possible to spot a whale shark.  The densely forested island is surrounded by numerous coral reefs, most of the coral is in good shape and the reef is shallow and accessible by all divers.
